How Do you Deal with Issue of Gender

Answer is found in Genesis 1-11

MOST-ASKED QUESTIONS

Don't we live in a scientific age? Hasn't science disproved the Bible? How do you know the Bible is true? What evidence is there for God? Who made God? You believe in Adam and Eve; then where did Cain get his wife? How did all the races come about if there were only two people to start with? Where's the evidence of the flood? Don't fossil layers prove millions of years and evolution? We know man evolved from apelike creatures; how could the story of Adam and Eve be true? How can you believe in a loving God with all the death and suffering we see in the world? Didn't dinosaurs live millions of years ago and evolve into birds? How could Noah fit all the animals on the ark? Hasn't science proved evolution is true?

Isn't the Bible an outdated book of mythology?

Where Did Cain gets His Wife? All goes back to Adam & Eve

- ⁴⁵ And so it is written, "The first man Adam became a living being." The last Adam *became* a life-giving spirit." - 1 Cor 15:45
- ²⁰ And Adam called his wife's name Eve, because she was the mother of all living." – Genesis 3:20
- ²⁶ And He has made from one blood every nation of men to dwell on all the face of the earth, and has determined their preappointed times and the boundaries of their dwellings," – Acts 17:26

Adam & Eve's Children Intermarried No major genetic issues

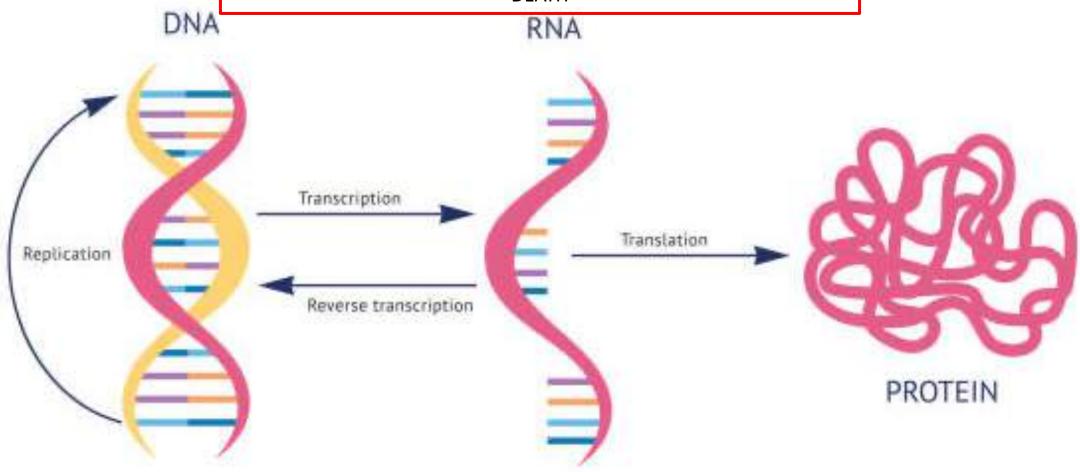

Genes were purer during Adam's days compare with now

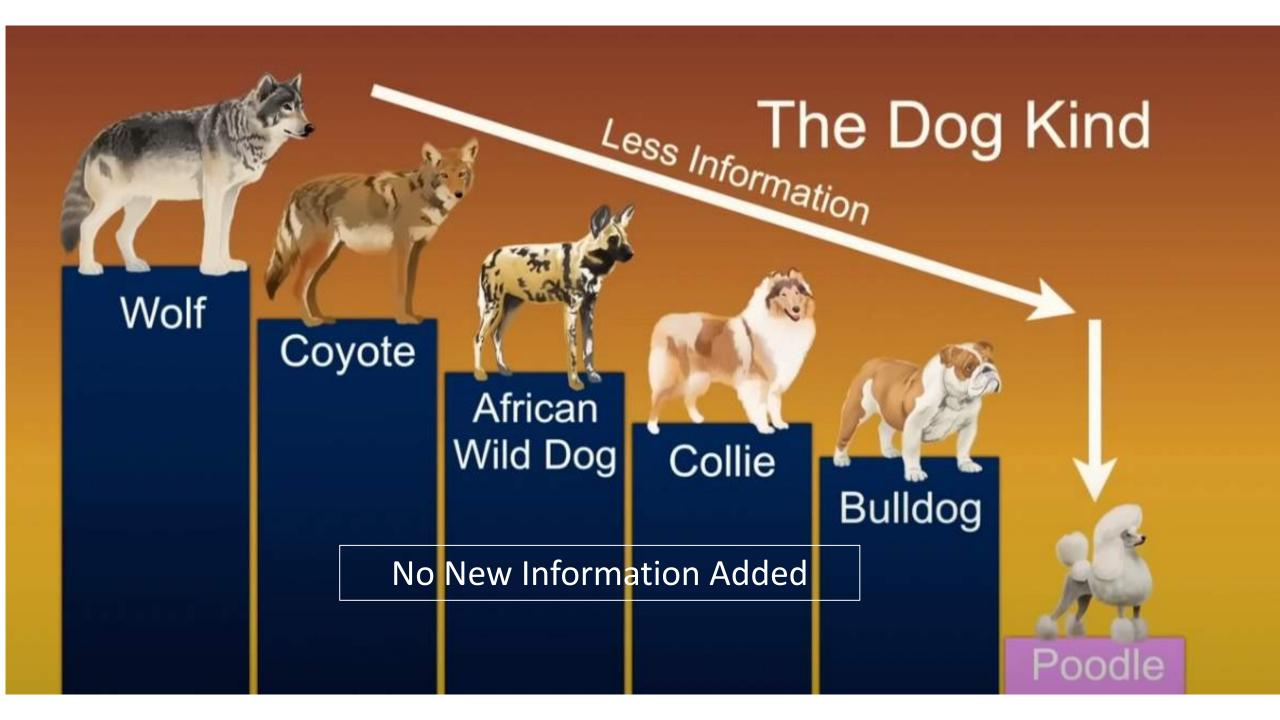

After many intermarriages, genes degenerated

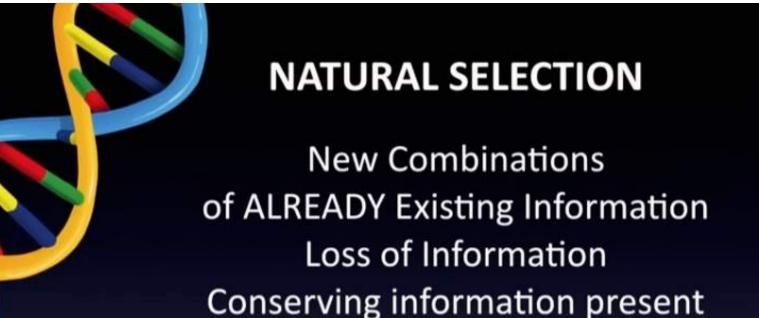

So now thousands of years later marriage between sisters and brothers would likely to have similar bad genes which then multiplied the genetic problems

TRANSCRIPTION AND TRANSLATION

Loss of INFORMATION (Data) embedded in the DNA Genetic deformation, resulting in Diseases which leads to eventual DEATH

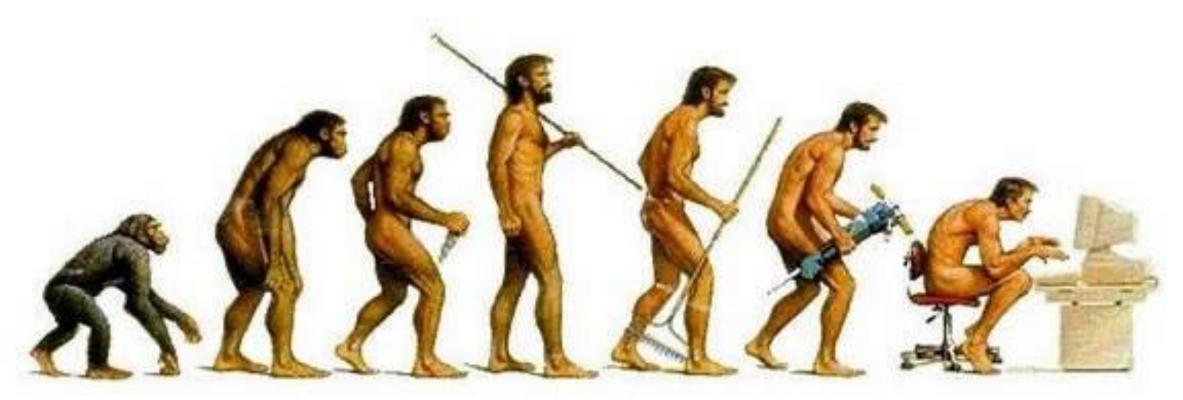

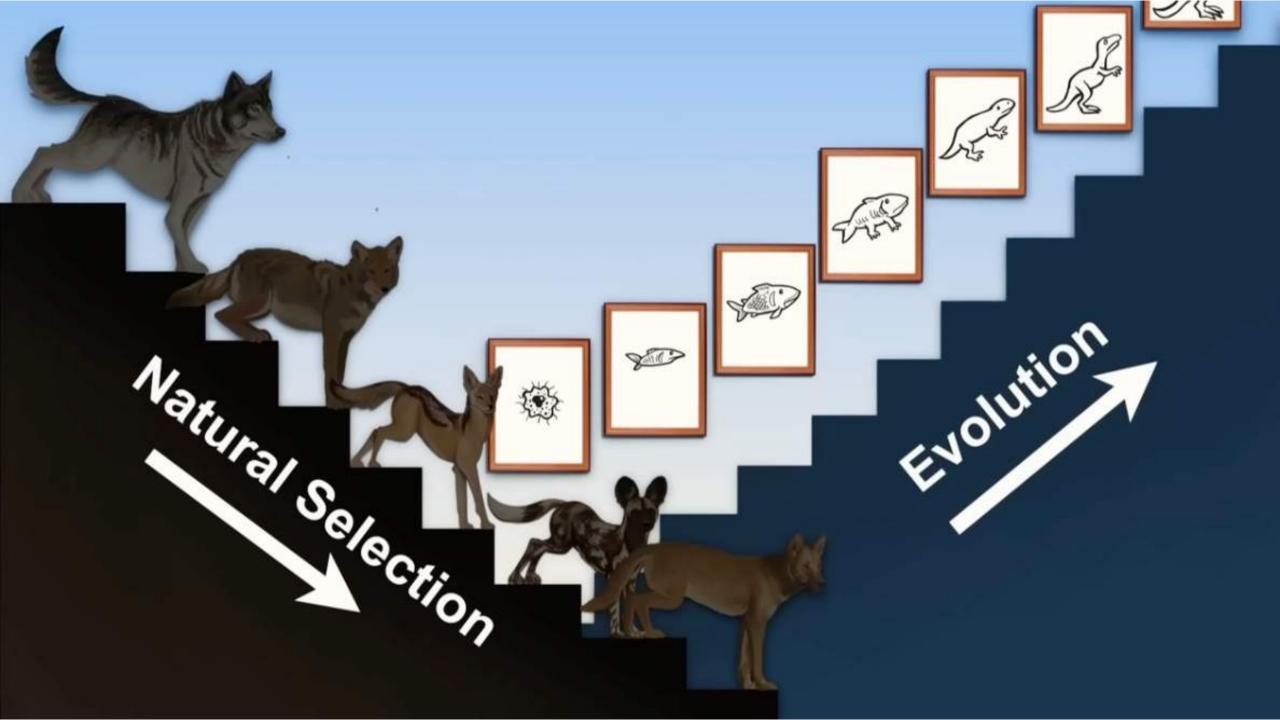

Opposite of Evolution

Evolution – Darwinism The theory of evolution is based on the idea that all species? are related and gradually change over time.

²⁴ Then God said, "Let the earth bring forth the living creature *according to its kind*: cattle and creeping thing and beast of the earth, *each according to its kind*"; and it was so.

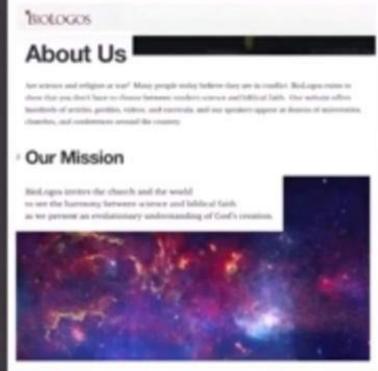

- Genesis 1:24

"The criteria that people use for race are based entirely on external features that we are **programmed** to recognize," he said.

 Dr. Douglas C. Wallace (professor of molecular genetics at Emory University School of Medicine in Atlanta)

Unfortunately for social harmony, the human brain is exquisitely attuned to differences in packaging details, prompting people to exaggerate the significance of what has come to be called race, said Dr. Douglas C. Wallace, a professor of molecular genetics at Emory University School of Medicine in Atlanta.

"The criteria that people use for race are based entirely on external features that we are programmed to recognize," he said.
